

Fire Protection In Your Home

The law in Scotland has changed and as of 1 February 2022 every home now needs to have interlinked fire protection alarms.

We are pleased to say that all our properties comply with the new standard.....

Become a "Test it Tuesday" champion

This is the Communities' team mascot
"Gowkie"

Smoke, heat & carbon monoxide alarms are fantastic at alerting you to a fire or a carbon monoxide spillage in your property, however only when they are working properly.

Do you know how to test your alarms?.....

Here is "Gowkie", showing you how

Regular routine testing and maintenance is very important.

A few minutes of your time will ensure that your alarm is working and could help save the lives of you and your family.

All fire protection systems should be tested weekly using the integral test button.

If you have any missing or faulty smoke, heat or carbon monoxide alarms, or you require assistance with testing your alarms, please contact our office on 01698 687222.

Would you like to become a "Test it Tuesday" Champion?

If so, you can be entered into our prize draw for a £50 ASDA voucher. (kindly donated by Saltire)

Please complete the form and return to our office by Friday 9th December 2022.....
Good Luck!

I'm a Test It Tuesday Champion

This is to certify that:

Name: _____

Is now a Test it Tuesday Champion because they have fully understood the importance of having working smoke alarms and testing them every week on a Tuesday.

Address: _____

Date: _____
